THE LAST OF THE LOAN

—OF THE—

CHICAGO

Danville & Vincennes

Railroad Company.

To Careful Investors.

It is seldom that Mortgages upon new Railroads are considered sufficiently safe for the investment of Trust Funds. It is only when a Railroad is earning, net, an excess of its interest obligations, with a certainty of a steady growth, that its Bonds can be said to be *perfectly safe.*

The CHICAGO, DANVILLE & VINCENNES RAILROAD is doing this, and has this certainty. That part of it known as the ILLINOIS DIVISION (from Chicago to Danville, 132 Miles,) was finished last year, and its gross earnings have increased from $31,464 07 in December, 1871, to $57,587 95 in August, 1872.

The *net* earnings for August were $30,412 46, or at the rate of $364,949 52 per annum. The total interest liability upon the total issue of Bonds upon both the Illinois and Indiana divisions is $280,000 gold. The Illinois division is, therefore, earning, *net,* more than enough to pay interest upon the entire bonded debt upon the whole road.

THE INDIANA DIVISION

is about eighty miles in length, traversing extensive Bituminous Coal fields, and making a direct (and the shortest possible) line between Chicago and the *Block Coal* district at Brazil.

The Iron and other materials for the Indiana Division have all been bought and paid for in cash, a part of it is now in operation, and the entire Division is to be finished this season and opened to a profitable business.

The company is not in debt, and owns a large and very valuable real estate in Chicago, beside having an equipment of twenty-three first-class locomotives and about 700 cars.

A first mortgage upon such a road, at the rate of $18,500 per mile is a safe investment, and we know of no other railroad bond, at the price asked for this, that can demonstrate a similar value as a security for savings banks and others.

We have sold nearly two millions of these bonds to savings banks, trust companies and the most careful investors, and have but $850,000 bonds remaining.

They are for $1000 each, and have forty years to run. Interest

7 PER CENT. GOLD,

payable April and October. Present price 90 and accrued interest from October 1st in currency.

The last week of our sales of ILLINOIS DIVISION BONDS amounted to $500,000. Early orders are therefore suggested, in order to secure any portion of this extremely desirable loan.

The Fall of the Tribune.

Whether or not there is any truth in the report that Mr. Greeley is not to continue the editorial management of the *Tribune* after the 5th of November, it is clear that his profitable connection with that paper is at an end. The founder of the *Tribune* is the author of its downfall, and we doubt if Mr. Colfax himself would be able to save the inevitable dropping off of subscribers during the present fall and early winter. The Maine farmers will not renew their subscriptions, and hereafter Thursday will not be a marked day in the annals of the country post-office as "Tribune day," the opening of the mail being several minutes later than usual on account of *Tribunes* to be distributed. So much is certain, and it is probable that like effects are observable in other States. What a paper it has been since the first of May! We have seen it giving its aid toward the adoption of an illiberal constitution, forbidding negroes to hold office in one State; in another it has allied itself with impenitent Rebels and the Ku-Klux in a successful effort to keep the freedmen from the polls. We have seen it abandon all those reformatory movements of which hitherto it has been the most conspicuous champion. The *Tribune*—Horace Greeley's *Tribune*—that used to offer welcome to every new thought which was kindly and humane, and that had a word of encouragement for every laborer in the thorny way of progress, has become obstructive, reactionary and thoroughly allied with the foes of humanity! The *Tribune* that educated one generation of Americans to be patriotic philanthropists now endeavors to educate another generation to be merely unprincipled and selfish. Its occasional vagaries mattered not, so long as its managers were mere private citizens, with only unofficial advisory powers, and so long as its general direction was right. Its editor was clearly too unsteady and too weak in the matter of practical judgment to make a good President, but he was a glorious editor, and inspired more than one young man with generous impulses and upright principles. But when the editor lost his integrity under the influence of a temptation that seems too great for any American, however eminent, to withstand, the tone of the whole establishment was at once lowered. The indescribable something characteristic of the journal, which we may call the *Tribune atmosphere*, was instantly gone. There was no longer any well defined purpose, except to make Horace Greeley President. There was no exhortation to good works—no moral sentiment of any kind. Instead of a reform journal, guided by genius, it became a mere personal political organ, guided by second-rate intelligence. It now belongs to a poor class of journals and is one of the poorest of its class.

The disappearance of the *Tribune* as a great political power is an event of considerable importance, but the struggle that is now ended has shown that a newspaper, no matter how able and influential, is not any more able to live on its past achievements and its past fidelity to principle, than a great man. Other men have taken the place of the Sumners, Chases, and Trumbulls in the van of progress, and the place left vacant by the demise of the *Tribune* will not long be left empty.

Maine Central Railroad.

We have positive assurances from a Director of the Maine Central Railroad that the report of the acquisition by Boston parties of a majority of the stock of that road is incorrect, all the stock before held there with the addition of that sold by Mr. Dunn being much less than a majority. We are further assured that there is no possibility of the control of that road passing out of the hands of citizens of Maine. The apprehension of a lease of the road to either of the Boston roads is stated to be absolutely without foundation.

THE *Galaxy* for November contains an article entitled, "Are Americans less healthy than Europeans?" The author after looking over the matter, concludes that American women are less healthy than their European sisters and moreover that the development of the American idea of beauty has a direct tendency to confound frailty of person with the highest types of loveliness. The writer predicts that American women will become extinct in a few generations. It is really a very serious matter from Mr. Young's stand point.

THE New York *Herald* is compelled, by a regard for indications too strong for its own preference, to admit that "at present it appears almost certain that Gen. Grant will be re-elected to the office he has filled for the last four years," from which state of things it infers that the country is not at this time prepared either for a sudden and violent change or for an experiment that may lead to a disturbance of the present financial situation, and hence has made up its mind to support Gen. Grant rather than to turn over the Government to Mr. Greeley and his singularly constituted band of supporters."

THE New York *Post* says that Democrats in all parts of that state are rapidly turning their backs upon the Greeley party. In many places Democratic Grant clubs have been formed, and they are working zealously.—Among the latest conversions reported are in Bethel township, Mr. John W. Troutman, chairman of the Democratic Township Committee, Mr. William J. Carver, a member of the Democratic County Committee, and Mr. I. J. W. Fox. In New York city Thursday night Mr. H. C. Calkin, an ex-member of Congress and always a Democrat, appeared in a Republican meeting and announced himself as a supporter of Grant and Wilson.

OUR New York exchanges assert that the purpose of Mr. Froude in coming to this country and lecturing on subjects bearing upon English and Irish history, is to bring Americans to look upon the causes of difference between those two countries from the British stand-point. Mr. Froude has attempted a somewhat difficult task and certainly has not made a very good beginning in the reference to the troubles between the two countries in the lectures reported. The argument that "might makes right" has never been a very popular one in this country and is much less so now than ever.

THE friends of education should bear in mind that the Educational Association meets in Bangor the present week. The exercises promise to be of unusual interest.

WE have received a pamphlet of forty pages, bearing the title "Record and Proceedings of the First Annual Re-Union of the First Maine Cavalry Association," containing the constitution of the society, the addresses at the meeting, the letters of absent members, the account of the banquet and other matters, not only of interest to the members of the regiment, but to every Maine man who feels justly proud of the imperishable fame of that organization, that has the right by virtue of valor to inscribe upon its standards the names of sixty-eight engagements The oration, speeches and letters are full of soldierly fire, soldierly greeting to comrades and soldierly tenderness for the heroic dead. Glorions old First Maine Cavalry! its history will be bright as long as the Pine Tree State is remembered by men.

IT is reported that certain institutions that received State aid upon the condition that they should sustain competent normal school departments are not fully coming up to their part of the contract. The report may be groundless but it is due alike to the schools and to the public that the matter be investigated,

Kennebunk Custom House.

KENNEBUNKPORT, Oct. 19, 1872.

To the Editor of the Press:

Not content with assailing the custom houses at New York and at the great natural seaport of the Canadas the Argus-*nosed* Democracy have scented out *spoils* in the humble brick building dedicated many years ago to the transaction of Uncle Sam's business in this quiet village; accordingly we are surprised to find it heralded all over the land that considerable unnecessary expenses are connected with the custom house at this place where there are no dutiable entries; and some of the weak brethren are made to offend by this foolish talk. This was made a port of delivery in 1799 and one of *entry* and delivery May 10th, 1801, under the administration of Thos. Jefferson, ever since which time the collector, deputy and inspectors have quarterly, for the intervening three score and ten years and more, drawn their salaries punctually and in the honest belief that they actually rendered to their Uncle Samuel a fair equivalent for the money received from him, till now they are greatly astonished to find that the erudite mathematician of the New York *World* has ciphered them out a fraud and a corruption.

It is true that at the time this was made a port of entry there were several small vessels engaged in carrying fish and lumber to the West Indies and bringing back rum, sugar and molasses; for the difficulty of intercommunication by land between different parts of the Union then diffused our imports and exports through many more seaport towns than they are with our present railroad and steamboat facilities; but, while this business is now more concentrated than formerly and monopolized by the larger and more favored ports other commercial interests have incalculably increased all along shore; and it may also be suggested that but for the appointment of customs officers here and at many other, similarly-situated, small places the imports at such points would be much larger than they are but the United States would derive no revenue therefrom; and the larger ports would soon perceive the difference in their entries and invoices.

Kennebunk now has forty-six vessels with an aggregate tonnage of over eleven thousand tons; there was built here, in the ten years preceding the present, 43,767 72-100 tons, notwithstanding the fact that this has notoriously been a period of great depression of the ship-building interest.

We trust we see the dawn of a better day and the promise of a revival of the activity and prosperity of 1857-8. This year sees more vessels of various sizes built and contracted for than in any one of the past fifteen years, and with unusually fair prospect of their finding remunerative employment. A splendid new ship (the *Friedlander*) of nearly 2000 tons, sailed week before last for New York, there to load for San Francisco, at a rate of freight equal to any ever paid such vessels, and which will give a net profit of the fifteen-month's voyage equal to two-thirds (almost) of her cost. In the river is a new three-masted schooner, of about 500 tons, of an elegant model and build, fitting for sea. She is now owned by Providence parties and is named for the well-known merchant of that city Earl P. Mason. The ownership of all this tonnage is constantly changing, involving a change of the documentary and record evidence of title. To compel parties to go to Portland on every such occasion would be unjust, vexatious, and probably uneconomical too.

This district comprises the large towns of Wells, Kennebunk and Kennebunkport, with twenty miles of seaport, six rivers, navigable by boats or vessels suited to smuggling purposes, and five harbors. The nearest custom house east is Saco ten miles off and the nearest west is at York, twenty miles. If Mr. Greeley's revenue reformers should see fit to abolish this port they could hardly retain Saco and York as ports of entry, and Portland or Portsmouth, twenty-five miles distant, would be the nearest Custom House. Our Collector is paid wholly by the fees paid by parties, and receives *nothing* from the United States; the deputy and inspectors have small salaries for the services performed; the former $600 and the inspectors at Wells, Ogunquit and Cape Porpoise, $156 each, aggregating $1068, while formerly they were (in all) $2306, under Democratic economy. The large fishing business and the flocking of mackeral fleets from the westward into these harbors requires the number of officers we have; and while the duties were at the highest point every vessel coming to an anchor had to be actually boarded and examined. The tonnage dues collected here during the imposition of that tax were about $8000—so Kennebunk has paid *directly* into the U. S. Treasury from her ships no small sum as a tax upon her industry, and by her persistence in ship-building throughout the war, and since, has done much to foster the commercial interests of the State and nation. *

THE TESTIMONY OF THE ROCKS.—Mr. S. B. Cushman makes the following communication to the Wiscasset *Oracle:*

On page 106, "Ancient Dominions of Maine," the author in speaking of Damariscove says "A smooth rock appears whereon the washing of the sea has laid bare numerous inscriptions in writing, apparently cut by human art in characters from one to four inches long, one-eighth of an inch deep and covering a surface of ten feet."

As the correctness of this statement has been questioned by some—and as the author made the statement from my representation of the fact to him at the time of writing his book—it seems necessary that the fact itself should be established without a doubt.

I have recently visited that locality—and the characters I then saw cut in the rocks, remain, as I saw them for the first time in the autumn of 1836. Several parties from this and other towns have seen the same inscriptions since that time; with my own hand, laying aside my coat, I assisted in laying bare, with spade and bush-broom, one tablet of granite of compact texture—fourteen feet long by two and one-half wide—covered with these mysterious chiselings, some cut with gouge-like instruments, and others with sharp-pointed tools. Two of these surfaces were thus brought to view—the second one six feet long by three wide—that had been hidden from mortal eyes for many centuries.

The figures themselves are of various sizes and lengths, ranging from three feet five inches long and one foot wide, down to one and one-half inches in length, manifestly executed by men of skill in that line of work. Numerous characters are to be seen upon other and apparently detached rocks, all indicating one and the same purpose, and written by the same skilled workmen, at that period of time. In appearance and shape they are unlike any thing I have ever seen, and cannot well be described. I have, however, made arrangements so that these inscriptions can be carefully transcribed upon cloth, for the use of those who are interested in such matters.

It is not my purpose to decide the questions, who wrote them or what time they were engraved there. I leave these things for others to answer. But beyond a question, as to time, they antedate the Christian era and go many centuries beyond it. It may be of Icelandic or Scandinavian origin; or, what is more probable the record of the people inhabiting the shores of the Levant.

THE Secretary of the Treasury, through the Light House Board, under date of Oct. 4th, 1872, has instructed the Superintendent of the lights in the various light-house districts, that in future, when any vacancy or vacancies occur among the *principal* keepers of lights, that assistant keepers shall be ordered before a Board of Examiners consisting of the Collector of Customs and the Inspector and Engineer of the respective districts where vacancies exist, and those who may prove the best qualified shall be nominated for promotion, and that, before the nomination of assistant keepers of light houses are made *all* candidates for the position are required to be examined before the same Board.

INTERESTING TO MERCHANTS IN THE CUBAN TRADE.—A telegram from Messrs. Lawton Brothers, the well known American house in Havana, to their correspondent in this city, says the Boston *Journal*, states that on and after the first of next January, the war taxes on exports from Cuba will be doubled, and on imports increased 25 per cent. The tax known as the "merchants' contribution" will also be increased. The war tax on sugar will be raised from $1.50 per hogshead to $3, and from 75 cents to $1.50 per box, making the total export duty $6 per hhd. and $2.30 per box.

MORE FILIBUSTERING.

Ryan Again Preparing to Invade Cuba.

The New York *Herald* of Friday contains the following sensational story from its Washington correspondent, relative to a fresh filibustering attempt of Gen. Ryan and associates upon Cuba:

"While General Martin MacMahon, Ramon Cespedes and Jose Mayorga are attending to the affairs of the Cuban Patriots in New York, General, W. A. C. Ryan is busily engaged here in getting up another filibustering expedition, with which he says he expects to be able to upset all the calculations of the Spanish Cabinet, and place the means of enfranchisement in the hands of the struggling insurgents. Ryan has been at work on the new venture for six weeks, and now expresses the utmost confidence in its success.

According to his statements—confidentially made here to-day—he has recently received assurances from patriots in Cuba that within a week from the time of landing an expedition, a force of ten thousand soldiers can be rallied to his standard, and then if a determined stand can be made in any part of the island a body of insurgents may soon be gathered together formidable enough to hold the territory against any army the Captain General will be able to bear. The promised accession of a fresh force of sixteen thousand Spanish soldiery has by no means served to intimidate the Cubans, and they say now is the time to strike, if ever. With this in view, Ryan claims to have already obtained subscriptions in this city amounting in the aggregate to $185,000, of which sum $25,000 are promised by one of the resident foreign ministers. Such a guarantee he considers sufficient. He is now under bonds in over $275,000, but expresses the determination not to let that deter him.

Negotiations for the purchase of a fast sailing schooner of four hundred tons burden have already been commenced, The project, as near as can at this time be ascertained, is to fit out the vessel as a 'longshoreman merchantman, load her with wood and put to sea. The cargo will then be thrown overboard or transferred to lighters, and the belligerant cargo placed on the schooner. This will consist of a privateer's armament for the schooner, and an extensive assortment of munitions of war for the insurgent forces.

Exactly what the latter will be is not yet decided, but will probably include 20,000 stand of arms (Springfield or Enfield rifles) 10,000 revolvers, several cannon and large quantities of ammunition of all kinds. It is proposed to transport all of these stores from some coastwise point between Florida and Massachusetts, while the schooner will probably sail from Boston or Baltimore. It is the intention of Ryan to use the schooner, after landing his expedition, entirely as a privateer, for which purpose he claims to hold letters of marque from the Cuban republic.

By the capture of Spanish merchantmen and their cargoes, Ryan expects to furnish the sinews of war as well as at the same time fill his own pockets. He makes no secret of the latter intention, and says he can clear $500,000 for himself in six months. The schooner will carry five hundred volunteers, a considerable part of whom will be composed of Cubans in this country, the whole to be officered with patriots and ex-soldiers who obtained distinction during the late rebellion. If everything should turn out as expected, the expedition will be under way on the 1st of December.

The above are Ryan's confidential statements. There is no doubt he is in earnest to carry out the plan to the letter, and is now in correspondence with various parties in the United States with regard to the arms, equipments, &c., of the expedition. It does not appear, however, that he has the entire sympathy of the Cubans in this country. A prominent gentleman here, who has long been in favor of according to Cuba belligerent rights, and who has been in many ways connected with the cause, says Ryan has lost caste with Jose Mayorga, authorized Cuban agent in New York, and ought not to be trusted with any more ventures of the kind he has been undertaking. This gentleman explicity alleges that Ryan has repeatedly sold out the cause of the insurgents.

On the other hand Ryan claims to have authority from Cespedes and Mayorga to proceed with the undertaking, and appears determined to do so.

Admiral Polo, the Spanish minister to this country, has already received notification of the contemplated expedition.

MR. BLAINE'S WEALTH.—The Pittsburg, (Penn.) *Commercial* has been led by the spirit of malignant rancor toward Speaker Blaine exhibited by the *Tribune*, to make the following statement: "As to his being a millionaire, it is to be presumed the assertion is merely one of those extravagant statements which belong to the literature of a heated campaign. But as to his being a 'poor man in 1863,' every one familiar with the coal trade and the value of coal properties in our immediate vicinage on the Monongahela River, knows the assertion to be completely at variance with the fact. Long before 1863, indeed, as far back as the Democratic administration of President Buchanan, it was well known that Mr. Blaine owned one of the finest coal properties on the Monongahela, which returned a much larger income than a Congressional salary, many years before he was a candidate for Congress. This fact the Alleghany county registry of deeds establishes in the most indisputable manner, and we refer to it simply to show how wild and reckless the *Tribune* has grown to be in its charges against conspicuous and influential Republicans. It should be stated, moreover, that the business reputation of Mr. Blaine in trade circles, where he is well known here, stands very high. Those who are familiar with his attention to details, his industry, his energy, his enterprise, and his integrity, find no cause for wonder in the fact that he has become, not a millionaire, but a man of independent fortune, destined probably, in the development and advance of his property, ultimately to attain to the possession of large wealth. Will the *Tribune* have the candor to state these simple facts?"

THE Liverpool Consulate has been given to ex-Governor Fairchild of Wisconsin—a gentleman of high personal character, with a noble war record. Mr. Dudley, who resigns, has been one of the most watchful and efficient of public officers. He was appointed by President Lincoln at the beginning of his administration, and during the dark hours of the rebellion was thoughtful, vigilant and courageous, though surrounded by the enemies of the United States. His rare fidelity won the cordial approval of Mr. Seward, and has been recognized by Mr. Fish.—[*Boston Transcript.*

Gen. Butler, in a card to the Boston *Traveller*, denies that he ever said to any one that things look bad (for Grant) in the West.

Mayor Medill of Chicago, has proclaimed against Spiritualistic exhibitions and liquor selling on Sundays. He says liquor dealers must go to church and Spiritualists must pay license.

Mrs. Richard Stanley, now living in West Virginia, has had 14 childoen, 39 grandchildren and 223 great and great-great grandchildren—total progeny 336—with returns from the back towns not yet all in.

Track laying on the Dakota division of the Northern Pacific Railroad is progressing at the rate of three miles per day.

A can torpedo was exploded at Newport, R I., Friday, containing one hundred pounds of nitro-glycerine, fired by electricity. The can was placed under a raft, and the explosion was violent in the extreme, raising the raft bodily out of the water and entirely separating the planks and beams of which it was constructed. A very heavy body of water was thrown to a moderate height, the lateral spread being immense. Commodore Matthews, the officer in charge, left for Europe Friday night upon business connected with this very important item of Uncle Sam's warfare.

STATE NEWS.

ANDROSCOGGIN COUNTY.

Gen. G. L. Beal of Norway will preside at the election to fill the vacancy of captain in the Auburn Light Infantry this evening.

The Lewiston *Journal* has specimens of Southern white and yellow corn fully ripened in Auburn this season.

The first division of the Freshman class of Bates college held their prize declamation Thursday evening. Eleven pieces were spoken.

Prof. Pratt is bringing lots of vicious horses to very humble ways in his school at Lewiston.

AROOSTOOK COUNTY.

Two Kennebec drivers started a drive of 500 cattle from Presque Isle on Tuesday of last week. Large droves of sheep go from that section every few days to the outer world.

The *Sunrise* is assured by those who know that a railroad will pierce the Aroostook by the way of Presque Isle soon.

Co. Commission Bean who, has been over the greater part of Aroostook county informs the *Sunrise* that there has never been so many new buildings.

KENNEBEC COUNTY.

The Gardiner *Reporter* says that rather a good story is told of a young man in thatcity who went to Augusta Wednesday evening to hear Booth. Getting his money's worth by 10 1-2 o'clock, he left the hall and took the regular train for home. Before reaching his native city, however, he fell asleep, and waked up in season to hear the conductor shout "Saco." He swears he will never travel again on a mileage ticket.

The same paper says that a queer specimen of the finy tribe, weighing about nine pounds and being apparently a cross between a trout and a salmon, having a perfectly formed trout's head with the usual spots upon the body, while the tail and other parts resemble that of a salmon, was caught at one of the booms near that city last week where it jumped out of the water upon the logs as he approached the spot.

There are now thirty copies of the New York *Tribune* taken from the post-office at East Vassalboro'. Only one person intends to renew his subscription after the expiration of the year.

Eight hundred tons of freight, mostly iron and coal, goes annually to West Waterville by rail for the Dunn Edge Tool Co. Both are used in the manufacture of scythes, axes, grass-hooks and corn and hay hooks.

The Waterville *Mail* says the new Union Depot is progressing rapidly. The south wing, or the ladies' room, is slated, and the main building is up with the roof on about ready for the slaters.

Dr. N. R. Boutelle of Waterville, who secured several first-class premiums at the State Fair, waives his claim to all but the honors, in view of the small receipts of the Society.

The Gardiner *Reporter* states that the Grand Jury, after hearing all the circumstances connected with the Marson tragedy, that recently happened in Pittston, refused unanimously to find a bill against young Marson, and he was accordingly discharged on Friday.

LINCOLN COUNTY.

Samuel L. Miller has started a small monthly paper at Waldoboro, called the *Advertiser*, which he gives away.

A correspondent of the *Oracle* says that the building of the Wiscasset & Kennebec Railroad will not only make Wiscasset the first commercial city of Maine, but will be the means of sending a direct line to Aroostook and to New Portland via Farmington. It is proposed to be a narrow guage road.

PENOBSCOT COUNTY.

The Dexter *Gazette* reports several cases of typhoid fever and considerable sickness in that locality.

The Bangor *Commercial* will hereafter be issued as an evening paper.

Bangor potato buyers say that the quantities brought into that market have been smaller thus far than for some years previous. They pay 65 cents for good lots.

The survey of the Bucksport & Bangor railroad is about half completed.

The Bangor *Whig* says that on Thursday evening a nail which Mr. Charles Currier was driving broke and splintered under the hammer, and a small piece flying up buried itself in one of his eyes, destroying the sight forever.—Mr. Currier belonged in East Orrington and has for some time past been employed in the pattern shop at the Hinckley & Egery Iron Works. He seems peculiarly unfortunate, as but a short time since he accidentally cut three fingers off one of his hands.

Orlando Moore, constable of Brewer, has been arrested on a charge of manslaughter on complaint of John Nally, son of Richard Nally of Brewer. The elder Nally is supposed to have died from the effects of a blow received while being arrested by Moore.

OXFORD COUNTY.

The Masonic Lodge at Bryant's Pond dedicated a beautiful and spacious hall last Thursday. Grand Master David Cargill performed the ceremony and Mr. Foster of Buckfield delivered an address. There was a dinner at the Bryant Pond House. Dr. Lapham of Augusta presented the Lodge an elegant bible.

WASHINGTON COUNTY.

Edward S. Kirby was convicted of manslaughter at Machias last Friday. This conviction was for causing the death of a man at the tannery at Forest City near Vanceboro last summer. Hon. Bion Bradbury and C. R. Whidden were the counsel for the defendant, and Attorney General Reed and County Attorney Hervey for the State.

YORK COUNTY.

The Saco Lyceum Committee are to offer the public this winter eight entertainments—all first class. The course will be opened on the 27th of November by Rev. Robert Collyer, of Chicago—subject, "Clear Grit."

The Biddeford and Saco Shooting Club is about to make war upon the poor birds.

Edwin Booth appears at City Hall, Friday and Saturday nights of this week.

The *Times* says the attendance upon the Acton and Shapleigh Fair, held at Acton this week, was very good, and the show of vegetables better than at the York County Fair this year.

"Used Up"

What is the precise meaning of this familiar phrase when employed to signify an unnatural condition of body and mind? It means exhaustion, languor, want of vital energy, mental apathy—a pitiable state of physical and mental helplessness. The best, and in fact the only perfectly reliable panacea for a "used up" system is that most popular and potent of medicinal stimulants, Hostetter's Stomach Bitters. No matter whether the health has been broken down by excessive labor, over-study, an insalubrious atmosphere, anxiety, irregularities in diet, dissipation, or any other cause, this powerful and pleasant vegetable restorative will soon recruit the drooping energies of nature, restoring the integrity of the nerves, and re-establishing that functional regularity which is essential to animal vigor and a hopeful frame of mind. As a cure for *debility*, in all its varied manifestations, Hostetter's Stomach Bitters is unapproached by any tonic in the *materia medica.*

CONSUMPTION CAN BE CURED.
SCHENCK'S PULMONIC SYRUP,
SCHENCK'S SEAWEED TONIC,
SCHENCK'S MANDRAKE PILLS,
Are the only medicines that will cure Pulmonary consumption.
Sometimes medicines that will stop a cough will often occasion the death of the patient. It locks up the liver, stops the circulation of the blood, hemorrhage follows, and, in fact, clogging the action of the very organs that caused the cough.
Liver complaint and dyspepsia are the causes of two-thirds of the cases of consumption. Many are now complaining with dull pain in the side, the bowels sometimes costive and sometimes too loose, tongue coated, pain in the shoulder blade, feeling sometimes very restless, and at other times drowsy; the food that is taken lies heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach or a torpid liver. Persons so affected, if they take one or two heavy colds, and if the cough in these cases be suddenly stopped, the lungs, liver and stomach clog, and remain torpid and inactive, and before the patient is aware of his situation, the lungs are a mass of sores, and ulcerated, and death is the inevitable result.
Schenck's Pulmonic Syrup is an expectorant which does not contain any opium, nor anything calculated to check a cough suddenly.
Schenck's Seaweed tonic dissolves the food, mixes with the gastric juice of the stomach, digests easily, nourishes the system, and creates a healthy circulation of the blood. When the bowels are costive, skin shallow, and the patient is of a billious habit, Schenck's Mandrake Pills are required.
These medicines are prepared by Dr. J. H. SCHENCK & SON, Northeast corner of Sixth and Arch streets, Philadelphia, Penn., and for sale by GEO. C. GOODWIN & CO., 38 Hanover street, Boston, and John F. Henry, 8 College place, New York.

Superior Court.

BEFORE JUDGE SYMONDS.

SATURDAY.—No cases were tried. The juries were dismissed for the term, and assignments of justice trials made for Monday. Thirty-three jury cases have been disposed of this term.

Municipal Court.

JUDGE MORRIS PRESIDING.

SATURDAY.—Mattew McGlinchy, intoxication and disturbance. Sentenced to thirty days in jail.

William Clark, for larceny of a coat and opera glass from Philip Sawyer, was sentenced to sixty days in jail.

William B. Leavitt, search and seizure. Sentenced to a fine of $50 and costs. Appealed. Williams for defence.

Brief Jottings.

Smelts are plenty in Back Bay.

Rev. Dr. George T. Chapman, who was rector at St. Pauls church, Portland from 1832 to 1835, died at Newburyport on Friday, aged 86. His life was long and full of activity and usefulness.

The sale of seats for Mr. Booth's "Macbeth" will begin this morning.

Hale exhibits in his window a fine portrait by Miss Skeele, and two very creditable pictures by a young Belfast Artist.

Ground has been broken on Newbury street for the new boot and shoe factory of Norris, Hall & Co. The carpenter work will be done by Spencer Rogers.

The Official Gazette of the U. S. Patent Office will hereafter be kept on file for public examination in the periodical room of the Public Library.

Government is considering the expediency of paving the streets around the postoffice with wood.

The work of extending the breakwater has begun. The course of the new work will be directed more towards Cushing's Island in order to avoid obstructing the flow of the tide.

The sale of twenty acres of land in the vicinity of Vaughan's bridge, by Hon, John B. Brown, to the Boston and Maine railroad, has been fully consummated. The Company has heretofore occupied it under a bond.

The ladies of the First Baptist Society realized $80 by their levees last week.

The Mercantile Library Association, at their meeting on Saturday evening, voted to have an anniversary ball during the Christmas holidays.

Work on the new wharf of the Maine Central Railroad Co. opposite their passenger station, has been begun.

The Trustees of the Relief Fund of the Portland Fire Department will give a ball for the benefit of the Fund about the middle of November.

Liquors were seized Saturday morning at the Bostom steamer, and in the afternoon quite a large quantity was confiscated at the New York boat.

Deputies Sterling and Williams arrested Margaret McNulty Saturday evening for the theft of two dresses and an opera cape from Miss Mary Stone on Green street. The things were recovered. Margaret is not more than fourteen or fifteen years old, but she has a fast police record.

The sale of tickets for Mrs. Stowe's reading on the 31st, will begin at Stockbridge's this morning.

Edwin Booth is 38 years old.

The effort to prescribe a uniform style of dress for the girls in the High School is not favorably received by the young ladies.

The subject of temperance was considered at the Sunday School concert of the Free street Baptist church last evening, and addresses were made by several gentlemen.

Rev. Mr. Mellen preached yesterday at the First Parish church, and Rev. H. R. Howard of Potsdam, N. Y., at St. Luke's church in the evening.

Deputy Sterling and officer Mererve arrested George Johnson at his father's house on Grove street last night. Johnson escaped from the Reform School last February with two others and has been at large ever since.

THE RACES.—The great sweepstakes race for $250, open to all horses, $150 to the first horse, $65 to the second, and $35 for the third, will be trotted at Forest City Park this afternoon at 2½ o'clock. Seven horses have been entered, but it is not certain that all will start. Phil Sheridan, Col. Moulton and Sheppard Knapp have been here several days waiting for the weather to clear up. The first has a record of 2.36; the second of 2.30; and the third of 2.27: so the race promises to be the most exciting of the year. Should the weather be favorable the Park should be full of spectators. The three minute purse, which was also postponed from Friday, will be competed for this afternoon. Thirteen entries are on the books; out of the two races a good deal of sport ought to be got.

A match for $100 a side, has been made between Mumm and Slasher, two well known horses, which will be decided on Tuesday afternoon.

THE *Star* of yesterday asserts that Portland has lost her commercial trade beyond recovery and recommends that "she turn her attention to the encouragement of those manufactures which might easily be induced to locate here." It says "the sooner our merchants and capitalists open their eyes to the fact that Boston, so far as it relates to the commercial trade of New England, has at every point the absolute advantage of any rival on this side of the East River, so much the better it will be for them." "The merchants and capitalists" of Portland adopted a liberal policy in regard to manufactures before the present editor of the *Star* came to his present position; and upon the other point he may represent the wishes of some other community, but he does not reflect the sentiments of Portland people, nor state a fact.

SECOND PARISH.—The work on the interior of the Payson Memorial church is going rapidly on. At a late meeting of the society it was resolved to hold a fair in the City Hall, on the 20th and 22d of December next. It is hoped that by this means a considerable sum may be raised toward the completion of the edifice. Donations of money or of fancy and other suitable articles will be thankfully received.

ACCIDENT.—Last evening a wagon containing a gentleman and little girl, came in collision with a pile of lumber in the road corner of Congress and Quincy streets, where a house is being erected. At the same moment a street car came along and struck the hind part of the wagon, throwing it to one side, but fortunately no one was hurt. The wagon, hower, was badly injured.

Portland Light Infantry.

The Portland Light Infantry, with its full color guard, composed of veterans wearing the old white uniform of the company, will leave this city for Providence by boat this evening. The full Portland Band has been engaged. Upon arriving in Boston the company will be met by the officers of Boston City Guard, who will escort the Infantry to the Warwick House, now kept by Messrs. Boothby and Wall who are honorary members of the P. L. I. Here the company will take breakfast. At 9.30 a. m., the line will be formed, and the company will march directly to the depot and take the cars for Providence where it will be received by the 1st Light Infantry Regiment of that city, commanded by Col. Charles R. Dennis, who will be pleasantly remembered by Portlanders as the commander of the Providence Light Infantry, which visited this city two years ago. Immediately upon arriving in Providence a collation will be spread by the Providence regiment, after which the visiting company and escort will parade thorough some of the principal streets.

In the evening there will be a concert by the Portland Band, and an exhibition drill by the Portland Light Infantry.

Wednesday the visiting company will leave for Boston, arriving at 1.10 p. m., where it will be received by the Boston City Guard, and escorted through some of the principal streets. In the evening the two companies will give a friendly competitive drill at Williams' Hall, closing with a promenade concert.

Thursday, the Infantry will visit Charlestown as the guests of the Charlestown City Guard, the same company which visited this city last year, and Thursday night the Portland company will leave for home by boat.

A large number of honorary members accompany the Infantry, among whom are Mayor Kingsbury, City Marshal Clark, Alderman Winship, Z. K. Harmon, Charles P. Knapp, J. B. Littlefield, J. B. Coyle, Jr., Capt. John Anderson of the Portland Cadets, and others. Mr. Gosse of the *Argus*, and Mr. Merrill of the PRESS, accompany the expedition to record the deeds of valor which may be performed.

A ponderous honorary staff has been announced, and although the average rank is fearful for so small a body as a company of militia, yet the members of the staff have declared their willingness to observe the strictest discipline. The following are the principal members of the staff, and there are yet a few vacancies:

Gen. Geo. L. Beal, Chief of Staff.
Col. Rishworth Rich, Commissary.
Capt. G. Webster, Ass't. Commissary.
Col. A. W. Bradbury, Quartermaster.
Col. Geo. W. Parker, Ass't. Adjgt. Geni.
Bvt. Col. B. Kingsbury, Jr., Judge Advocate.
Bvt. Col. Chas. Clark, Provost Marshal.
Major A. O. Shaw, Surgeon.
Lieut. B. F. Fogg, Ass't. Surgeon.
Lieut. Chas. J. Pennell, Aid de Camp.
Lieut. E. W. Loveitt, Aid de Camp.

The Infantry drill is said to be such as will challenge the admiration of military critics.

THE CASE OF MATT MCGLINCHY.—The *Advertiser* reads His Excellency, Gov. Perham, a short lecture which we are sure it would not if it fully understood the case of McGlinchy. The case as presented to the Governor and Council may be briefly stated. Some years ago McGlinchy, who, we fear, is not a model citizen, got into a row on Fore street, and being the under man in a clinch, snatched the upper man's pocket-book from his pocket and threw it into the gutter. At this time the police came along and arresting all the parties took them to the station. There the man missed his wallet and McGlinchy informed the police and the man that he threw it away and where it could be found. The police went to the place and found it unopened. McGlinchy, however, was by some means indicted for the theft and it was not until the County Attorney was preparing the case for trial that he learned the real facts in the case, and that the man who owned the wallet would testify that it was not the intention of the prisoner to rob him. As we understand it, it was arranged between the County Attorney and McGlinchy's counsel that the plea of *nolo contendere* should be entered and the case put upon a special docket, the defendant going out of court on a nominal recognizance, it being understood that the case should thus be dismissed at the next term. At the next term Matt's name came up again in connection with some irregularity, and Judge Goddard remembering the name, had the dockets searched, and finding his name in this manner on the special docket, ordered him to be brought before court. Unfortunately, both the County Attorney and McGlinchy's lawyer were out of town at the time and he was brought into court and sentenced to three years in the State Prison. McGlinchy's attorney, returning in a few days, learned the real position of affairs and took measures to correct the error; but too late, as sentence had been passed. Measures were taken to secure the pardon, if if may be so termed; and the council, more than a year ago, or soon after Gov. Perham was inaugurated when it was agreed that the man was improperly held, but his friends agreed to place the matter upon his prison record, which proved to be bad. The case was again brought up, and upon a full presentation, the Executive Council saw that it was clearly a case of great injustice—no less than punishing a man for a crime that he never committed and was not really convicted of. There was no other course left but for the Governor to grant the pardon.

The fact that McGlinchy has so soon begun his former career and has so soon got into jail is no good reason for punishing him for a crime that all parties acquainted with the facts, are satisfied that he did not commit.

PERSONAL.—We received a call Saturday from our friend and former fellow citizen, Alderman Southard, who is in better health than he has enjoyed for five years. Mr. Southard has established himself in business in Boston, and is connected with the North Carolina Land Company, whose advertisement may be found in our columns this morning.

MRS. HARRIET BEECHER STOWE.—The sale of seats to Mrs. Stowe's readings opens this morning at Stockbridge's music store. As Fluent Hall will only seat about 650 persons on the floor according to the plan for this reading, those who wish good seats should apply early. The price of seats is only 50 cents each.

A reform organization comprising Charles O'Conor and other prominent citizens is to tender the nomination of mayoralty to Havemeyer, Tuesday next.

Tammany Items.

Rumors are current that an ex-sheriff has been indicted for presenting illegal bills to the board of audit.

It was learned at Tweed's law office to-day that Tweed is quite ready to appear and offer bail, and will do so when required; also that the "ex-Boss" was within thirty minutes ride of his office and didn't meditate flight at all. Very little excitement exists in regard to the matter about City Hall.

Various Matters.

Mark Flannagin was to-day sentenced to imprisonment for life for murdering his wife.

Tweed has not yet put in appearance with his bail, and it is not probable that any Supreme Judge will be found on the bench to day. He will stay at Greenwich till Monday.

The failure of Caldwell, Walker & Co., brokers, is announced.

There was considerable excitement on Wall street this morning, owing to the manipulation of parties in Pacific Mail. Quite a panicky feeling prevailed, but it is expected it will subside before the close of the second call.

The National Board of Trade.

At the morning session of the National Board of Trade the executive council reported in favor of Chicago as a permanent place of meeting of the Board. The chairman informed the Board that the council had unanimously re-elected Secretary Hamilton A. Hill.

Mr. Roper of Boston proposed the following resolution recommended by the Board of Trade.

Resolved, That this Board would urgently recommend to Congress and the Legislatures of the several States the adoption of some improved system of voting, such as the so-called Hare system.

Mr. Roper said that if the Board considered finance, railway and other important subjects, and did not take up the system by which the will of the people is supposed to be expressed at the elections, they would commit a logical absurdity. Under the present system of wire-pulling, by a set of men called politicians, the people are getting demoralized. Many do not care to vote at all. The people are not represented and the electors are controlled by the tyranny of party organizations. Of the various systems by which the minority may have representation are those of substitutes, proxy, limitation, cumulative voting, the "list" system, and the Hare method. Under the latter system, which has been very much discussed in Boston, every man could vote for the man he prefers for many office, and the choice of good men in the community, would always have sufficient votes. The speaker gave details and illustrations of the various systems.

The trade subject was referred to the Executive Council. The subject of free trade in money was discussed. Considerable discussion was also had upon the currency question, based upon a resolution from the Boston Board of Trade recommending a gradual resumption of specie payments.

The Forthcoming Report of the Internal Revenue Department.

A Washington despatch states that the Commissioner of Internal Revenue will be very brief in his annual report. The changes in the law worked so satisfactory that no recommendation or improvement can be suggested. The revenue from wiskey and malt liquors has largely increased. The amounts realized from tobacco at twenty-five per cent. beyond the calculations. The troubles with the brewers will be left to Congressional action. The present uniform tax on tobacco has been found to work especially favorable. The number of distilleries, especially in the Southern States, has increased in an unprecedented manner, and it is estimated that under reduced figures the revenue from internal sources will amout to $125,000,000, which is $20,000,000 above the figures agreed upon by the financial authorities when the reductions went into effect.

Parsons, 20th do, Rep., 2023. In addition to the above O. J. Dodd, Dem., was elected to fill the vacancy in the 1st district.

Fire—Sudden Death—The re-issue of Greenbacks.

CHICAGO, Oct. 19.—A fire this morning entirely destroyed the Union Bolt and Screws Co.'s Works in the northern suburbs of the city. Loss $125,000; insured for $50,000.

Richard Hickey, a well known stock dealer of this city, while going to the stock yards today, suddenly fell dead.

It is reported that a movement has been started among the merchants and business men of the various Western cities to send delegates to Washington to urge upon the Secretary of the Treasury the propriety of re-issuing the $40,000,000 of greenbacks recently withdrawn from circulation. In furtherance of this plan a meeting was held to-day at which were some seven or eight business men. The discussion of the subject drew out a decided opposition to the project from two or three of those present and finally decided to call a public meeting for Monday next to further consider the result.

METEOROLOGICAL.

SYNOPSIS OF WEATHER REPORTS FOR THE PAST TWENTY-FOUR HOURS.

WAR DEP'T, OFFICE CHIEF SIGNAL OFFICER, Washington, D. C., Oct. 20, (8.00 P. M.)

Probabilities—The barometer will fall on the lower lakes with threatening weather, and brisk southerly winds for New England. For the Middle States generally clear weather and winds changing to the westerly on Monday. In the South Atlantic and Gulf States northerly to easterly winds with partially cloudy weather in the former and increasing cloudiness and occasionally rain in the easterly gulf from Minnesota to the lower Ohio Valley, and eastward to Lake Huron and Ohio. A falling barometer, generally cloudy weather, southerly to westerly winds with rain on the upper lakes and northeasterly winds on Lake Superior. Cautionary signals are ordered for Duluth, Chicago, Milwaukee and Grand Haven. Reports from the Southwest the far Northwest and the North and South Pacific are still missing.

Fire.

CLEVELAND, Oct. 19.—A fire occurred last night in Sandusky, Ohio, in the dry room attached to the Wadsworth handle works. The building and all the stock and machinery were entirely destroyed. The flames extended west to the lumber yard of Lee & Mass, but was soon extinguished, and also extended to the lumber yard of P. Gilcher & Co., destroyed about 300,000 feet of lumber. Loss on the handle works $40,000; insured for $15,000. Lee & Mass, loss $10,000. Gilcher & Co., loss $30,000; insurance $20,00. About 100 men are thrown out of employment.

Trouble Brewing.

It is rumored in Paris that President Thiers is in receipt of information relative to the threatened imperial reaction. It is stated that the Bonapartists in different parts of the country are still actively intriguing against the government and a strict surveillance is being kept upon suspected parties. Severe measures will be taken by the government, and several known to be implicated will be arrested.

Plon-Plon Again.

PARIS, Oct. 20.—Prince Napoleon has appealed to the Procurer General of France for redress against the Minister of the Interior, the Prefect of Police and others who took part in his expulsion from France. The appeal is made in accordance with the provisions of the penal code. Should it be rejected or disregarded, the Prince will commence personal proceedings in the courts against the parties concerned, and will avail himself of all legal means to procure the restoration of his rights as a citizen of France and the punishment of those who have illegally driven him from the country.

Mr. Boutwell's Circular.

The Syndicate Chamber of Commerce publishes the text of Secretary Boutwell's circular directing that "all goods imported into the United States in French vessels from countries other than French, shall be charged with a discriminating duty of ten per cent. ad valorem." The comment is appended that the circular was issued in retaliation for the new French law imposing differential dues on foreign bottoms, and will cause the loss to France of the carrying trade of numerous countries exporting goods via Havre.

Elections in France.

The elecions to fill vacant seats in the Assembly took place to-day. Returns to-night are meagre. In Bordeaux M. Caduc, Republican, has 19,772, and Forcorde Loroquette, Conservative, 5,328. In the departments of Oase, Morbihan and Vosdes, returns from towns only have been received, and show majorities for the radical candidates, Ronselle, Beauvais and Medine. Count De Chambord has written a letter protesting against the establishment of a republic as a permanent form of government. He says that monarchy alone can save France. There is no difference between the party of violence which promises peace to men while it declares war on God, and those prudent men who seek to obtain the same ends by covert means.

An Imprisoned American Released.

HAVANA, Oct. 19.—Boyd Henderson, the Herald special correspondent commissioned to visit Cuba for the purpose of collecting information regarding the state of the insurrection in the island, was released to-day by order of the Captain General, but the authorities maintain mysterious silence as to the cause of his temporary detention. Henderson was allowed to enter upon his tour through the island.

POETRY.

My Wife And I.

We never fight, my wife and I,
As other couples do,
Our little matrimonial sky
Is of the brightest blue.
She never bards me in my den
(My study, I should say,)
She vows I am the best of men,
But then—she has her way!

Some wives are never pleased unless
They wring from you a cheque,
Wherewith to buy some costly dress,
Or jewels for their neck
My little witch ne'er asks from me
The value of a pin—
She is so good and true you see,
But then—she keeps the tin!

"'Twas not!" It was!" "It was!" "'Twas not!"
Thus ever scold and fight,
Full many a luckless pair, I wot,
From morning until night.
If e'er we have a word or two,
The skirmish soon is past,
These words are mild and very few,
But then—she has the last.

Anecdotes of the War.

A QUARTERMASTER'S RECEIPT.

Capt. F. was undoubtedly the most original quartermaster in the service. He had plans for accomplishing certains results that were far in advance of the regulations, so he studied the blue book very little. On one occasion in Western Virginia, while taking property and giving his receipt for the same, an old lady objected. "See here, now, mister; I don't know who you may be. This may be all right,and it mayn't." "You took the rebel quartermaster's receipt for property," retorted the captam. "Yes, but I knowed him," said the woman; "he's a very proper man, and I'd trust him for ten years. We kin go right down to Charleston and get our money any time." "Very well, if you prefer it I can give you a receipt in his name for this corn," said the captain. "Kin you do that?" questioned the captious female. The captain merely said, "Take your choice; you can have a receipt signed by me or one signed by Captain Bloods of the Virginia legion." The old lady finally concluded to take a receipt signed by the rebel quartermaster, and the captain made it out with a flourish. He acted on the the suggestion afterwards, and gave receipts on this plan in many cases where ignorant and captious rebels made any show of resentment. His explanations as to the nature of a receipt were wonders in their way, and he generally convinced his man that the rebel quartermaster was the man to pay the bills.

DICK, THE CAPTAIN'S COOK.

Habit is very strong. Captain H. had an old darkey as cook and servant, who had been a slave for forty years. He had great reverence for a white man, and always did what a white man told him to do. This was a good quality, but Uncle Dick carried it too far. The captain would give him chicken to carry into camp some day on the march. Dick would wander off, and some private, a great lover of chicken, would swagger up to Dick and thunder out "What you doing with that chicken, you black scoundrel? That man right over there is Gen. Buell. If he sees you with that chicken, he will have you hung, sure. He had two niggers hung this morning." This was always too much for Dick, and he would hand the chicken over, and the captain would go without chicken for supper.

"Where's that chicken, Dick?"

"I gub it to a white man what just saved me from gettin' hung, sah. Massa Buell was mighty mad at me fur carryin' that chicken, sah."

The captain would explain and then theaten. Dick would always promise to never give another chicken up; but the next night, with the captain's cautions in his mind, and the captain's chicken in his hands, he would be accosted by some straggler: "I say, uncle, where did you get that chicken?"

"Dis fowl belongs to Capt. H., sah? I is his cook, sah."

"O, yes; I thought I knew you. I thought I knew you. I know the captain very well. He is my cousin. You remember me, don't you? Just give me that chicken. I'll make it all right with the captain." And Dick, with the teachings of forty years clouding his intellect and understanding, would deliver the chicken. The captain would be in a towering rage, and Dick would explain. "A white man told me to gib it to him, sah; said he was your cousin, and I let him take de fowl."

Finally the captain told Dick he would have him shot if he ever gave up another chicken. Under this threat Dick came into camp with the chicken, and the captain viewed his operations as he dressed it, with great satisfaction. He stepped away to gossip with the colonel, when George H.—(last name same as the captain's) walked up to Dick and said, "well, Dick, you got the chicken safe this time havn't you." "Yes, sah. Golly! Massy Cap. gwine to shoot me if I don't fetch 'um, and white men can't fool me no mo'." "That's right, uncle, stick to it. The cap's my brother, you know. Nice fat chicken, isn't it? Let's have it." Dick, in perfect confidence, handed the chicken to George, and George walked off with it.

Halt an hour afterward the captain discovered his cook sitting on a camp kettle, with feathers still sticking to his fingers, but no chicken. "Where's that chicken, Dick," (with all the earnestness that a disappointed stomach could inspire). "Yer brudder tuk 'em," (sullen and short). "My brother—Hell—I haven't any brother—you—" "He said he was yer brother. He looks like you. He talks like you—and he's a mighty mean man—and I dun thought he was yer brudder. But he better be ca'ful, cos dis old man is mad now, he is. Dey is too many massas in dis company. One white man he says, hold de chicken. Nudder white man he says, let em go. One white man shoot me if I don't, and one white man shoot me if I do. So I can do nuffin." George here put in an appearance with the chicken nicely fried, and explained to the captain that he thought he would post Dick by trying another dodge on him, and that the Cap. might not miss his supper, cooked the chicken himself. Old Dick looked into the pan with wide open eyes; and while the two were laughing, slipped off, went round to the little fire where George had been cooking, and came back with three or four choice bits of chicken nicely cooked, which George had put away for himself. Dick precipitated affairs by turning these pieces into the pan with the others, remarking: "Massa George dun forgot some of de nicest pieces." The captain laughed and saw the point. There was a shout of laughter from outsiders, and George remarking, "That nigger is no durned fool, after all," executed a quick departure. This established Dick's reputation, and he carried chickens with impunity till he left the service.

LAWS
OF THE
UNITED STATES

PASSED AT THE
SECOND SESSION OF THE FORTY-SECOND CONGRESS.

[GENERAL NATURE— No. 63.]

AN ACT to authorize the commissioners of claims to appoint special commissioners to take testimony, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the commissioners of claims shall have authority to appoint special commissioners to take testimony, to be used in cases pending before them, who shall have authority to administer oaths and affirmations, and to take the depositions of witnesses: *Provided*, The claimants shall pay the fees of such special commissioners for taking the depositions of witnesses called by them; but such fees shall in no case exceed ten cents per folio if the claim is less than one thousand dollars.

SEC. 2. That any person who shall knowingly and wilfully swear falsely before the said commissioners of claims, or either of them, or before any special commissioner appointed by virtue of this act, in any matter or claim pending before said commissioners, shall be deemed guilty of perjury, and, on conviction thereof, shall be punished in the same manner prescribed by law in cases of wilful and corrupt perjury.

SEC. 3. That the commissioners of claims may appoint and employ agents, but not more than three at any time, whose duty it shall be, under the direction and authority of said commissioners, to investigate claims pending before them, to procure evidence, to secure the attendance of witnesses on behalf of the government, and to examine the same, and to cross-examine the witnesses produced by claimants, and to perform such other duties as may be required of them by said commissioners who may discharge them at any time. The said agents shall be allowed their actual and necessary traveling expenses; the expenses paid out in investigating claims, procuring witnesses, and taking testimony, and six dollars per day while employed in the discharge of their duties; of all which, at the end of each month, they shall make a statement in detail, specifying the amounts by them paid out, to whom paid, when and where and for what purpose, and the number of days employed in their duties, and shall transmit the same, duly certified, to the commissioners. But no claim where the amount exceeds ten thousand dollars shall be examined, decided, and reported by the commissioners to Congress, except the testimony on behalf of the claimant in such case shall have been taken orally before the commissioners or some one of them personally, or shall have been taken previous to the third day of March, eighteen hundred and seventy-one, to be used in the Court of Claims or before some department of the government.

SEC. 4. That the commissioners may employ three additional clerks at a salary of one thousand two hundred dollars per year; and may employ, at the usual rates, such assistance for the short-hand reporter as may be necessary, from time to time, in reporting, copying, and preparing for Congress the oral testimony taken in cases before the said commissioners.

SEC. 5. That all the expenses incurred under the provisions of this act shall be allowed and paid in the same manner, and out of the same appropriation provided for in the act organizing the said commissioners of claims, being an act entitled "An Act making appropriations for the support of the army for the year ending June thirtieth, eighteen hundred and seventy-two, and for other purposes," approved March third, eighteen hundred and seventy-one.

SEC. 6. That it shall be the duty of the said commissioners of claims to receive, examine and consider the justice and validity of such claims as shall be brought before them of those citizens who remained loyal adherents to the cause and government of the United States during the war, for stores or supplies taken or furnished during the rebellion for the use of and with the like effect as they are now required by law to do in the case of stores or supplies taken or furnished for the use of the army.

J. G. BLAINE,
Speaker of the House of Representatives.

PELEG STAPLES,

Agent for the State of Maine and New Brunswick.

☞Agents wanted in every town in the State. It has been about one and one half years since the University Medicines were introduced into this State. Notwithstanding the opposition from the Faculty the sale is daily increasing. Thousands of certificates can be presented if necessary, but if the following are not sufficient to satisfy the most sceptical, 10,000 additional ones would be useless.

CATARRH (the mother of consumption,) Scrofula, salt Rheum, and many other diseases hitherto considered incurable, readily yield under treatment of the University Medicines.

FEMALE DISEASES treated with perfect success. Having treated over two hundred cases within the last three months, I consider it safe to warrant a perfect cure to 95 cases out of every one hundred, without cauterization or the least exposure.

SPERMATORRHŒA, the greatest destroyer of humanity on the face of the Globe. How many bewail the loss of precious vitality without having the slightest idea of the cause, their manhood is daily vanishing and they are gliding into a state of hopeless decay. I have treated over five hundred cases of this malady within six months, with the University Medicines with perfect success.

Persons afflicted with diseases will please call or send and get a book, (free,) wherein they will find their diseases explained, and necessary remedies.

Certificates of Cures.

Some two years ago my daughter, seven years old, had a severe attack of rheumatic and pleurisy fever, which left her in a very dangerous condition. Her liver inactive, no appetite to eat, general debility and sinking daily. We employed good physicians without benefit. After having nearly despaired of her recovery we decided to try the New York University Medicine. In two months she was able to go to school, and has not been compelled to lose a day since on account of ill health.

CAPT. J. H. THORNDIKE,
18 St. Lawrence street.

Portland, June 25th, 1872.

PORTLAND, June 25th, 1872.

This is to certify that I have been afflicted with the inflammatory rheumatism for over twenty years. I have employed most of the best physicians in Portland, and paid hundreds of dollars for medicine without any permanent cure. Two years ago last March I was taken with Rheumatic fever; for five weeks I was unable to turn in bed or feed myself, my left arm and hand was reduced to nearly half the size of my right one, and was unable to lift two pound's weight until this cold, when I saw the effect of the University Medicines on the daughter of Capt. Wm. Thorndike. I called on Dr. Staples and stated my case. He said he could cure it. I commenced taking the medicine with the acupuncturation. Before I had taken four bottles I considered myself more free from pain than I have been for twenty years up to this time. I have not had a relapse. I consider it to be the only sure medicine for the above complaint.

WILLIAM. J. SMITH,
late firm of Pearson & Smith.

Staples's Compound Tar Ointment will cure Piles in 24 hours.

I was so badly afflicted with Piles that I could not rest nights or move without great pain. I was cured in 24 hours with Staples' Compound Tar Ointment.

Portland, June 25th, 1872.
RULOF DODGE, 23 Oxford street.

PORTLAND, Feb. 17, 1872.

DR. STAPLES,—This may certify that I had been troubled with Scrofula all my life. Some three months since I became so reduced that I could not raise myself in bed. In this condition my friend sent for you. With your direct Medicator and University Medicine I was in 30 minutes enabled to get up and dress myself. In one week I left Portland and travelled night and day in the South without the least inconvenience. I have since been free from all of the above troubles and cannot use too strong language in recommending the treatment to all afflicted. I am satisfied it saved my life.

W. W. ATWOOD, 24 Emery St.

DR. STAPLES, 250 Congress St., Portland,—You will doubtless recollect some two years since I called on you with a bad case of Salt Rheum. My hands and arms looked more like gum sticks than flesh, after taking your University Medicines four months the trouble all disappeared and I have not had the least return symptoms of the diseases since.

ALLEN N. STAPLES,
Treat's Island, Eastport, Me.

I have been troubled, more or less, for five years, with inflammatory rheumatism. For the last six months I have suffered beyond description. My limbs were badly swollen and inflamed; it was with great pain and difficulty that I could move. My case was well known by thousands of citizens in Portland. I am to-day a well man, and I was cured by the University Medicine, and Acupuncturation.

CAPT. W. S. PENNELL, 18 Grey St.

Some three months ago I was persuaded by my wife to take the University Medicines. My health and mind were so badly affected that my friends became alarmed for my safety. In a week after commencing to take the Medicine I felt great relief. I am now as well as any other man. My wife has been for a long time afflicted with disease that has baffled the skill of our best physicians; some of whom pronounced the case incurable. Under treatment of the University Medicines her health has greatly improved. Any one doubting will please call at No. 6 Lincoln street, or at repair shop Grand Trunk depot. GEORGE KINGSBURY.

Portland, Aug. 5, 1871.

For five years I have suffered with Catarrh, a bad consumptive cough and pain in my left side. I had employed several physicians and have paid them over $50 without the least benefit. I have used six dollars' worth of the University Medicines, and am relieved from the above troubles.

JOHN SHAW, West Com'l St., Portland, Me.

I have been troubled with Scrofula all my lifetime, and Neuralgia in the head seven years and have consulted good physicians from Maine to New York without any benefit whatever. I have taken six bottles of the Cancer Plant and one and one-half of the Neuralgia Elixir, and a little of some other kinds and I now feel better than I ever was before in my life. I cannot say with Mr. Munsey, that I feel twenty years younger, being only twenty-eight, but can say I never felt so young to my knowledge in my life.

I think the worth of the Medicine cannot be estimated in words or money.

MRS. A. O. W. FOSTER, Wilton, Me.

For twenty-five years I have suffered with Scrofula and Salt Rheum, (or Tetter.) Have paid out hundreds of dollars, and been treated by several first-class physicians without benefit. Some four weeks ago, I commenced using the University Medicines. At the time my forehead and head were covered with sores and scaliness of the skin; also my tongue was covered with small ulcers. I am to-day free from all the above troubles, and can heartily recommend these medicines to the afflicted.

S. C. MUNSEY, 27 Chestnut Street.

Portland, January 24, 1870.

As certain individuals have reported that the above certificate is false and my disease as bad as ever, I wish to say, at the time I gave the above certificate, the story was not half told. In addition to the above my legs and back were covered with sores. I am now well and feel at least twenty years younger than I did before taking the remedies.

My advice to the afflicted is to give the medicine a trial and not to be deterred by the cry of humbug.

It cured me, it has cured many others. I believe the extract of cancer plant will cure any blood disease in existence.

S. C. MUNSEY, 27 Chestnut street.

June 7, 1872.

I had the Catarrh so bad for several years that my hand became confused and painful. I was obliged to get up several times a night to keep from choking. I employed some of the best Physicians without benifit. I was perfectly cured with the University Medicines in three weeks.

A. M. MORGAN, 119 Congress St.,
Contractor on the Portland & Ogdensburg R. R.

Since giving the above certificate I have been perfectly free from Catarrh though I have been continually exposed to wet and cold.

A. M. MORGAN.

June 24th, 1872.

SOUTH PARIS, Feb. 2, 1872.

DR. STAPLES,—Dear Sir:—The medicine I got at your place, Jan. 24, has done wonders for me. It is all you recommended it to be.

You may make any use of the above you think proper. Yours truly, SETH MORSE.

The above case has been treated for the past four years by different physicians for cancer.

This may certify that I had been suffering with the "Rheumatism" for five months, and at that time it seized my right hip and leg, down to the foot. This the physicians called "Sciatic." I tried many kinds of highly recommended medicines which I took for the blood. Still I got no relief for seven months more, all the time doing my best, with as good advisers as we have in our city. Finally, I called at the New York University Branch, and the proprietor said he could help help me. So I commenced on his medicine, and in four weeks I thought I felt relief, and in eight weeks I was able to leavt my cane at home and have been well up to this time three months have passed. DAVID KEAZER.e,

Portland, Aug. 2, 1870.

I have been afflicted for twenty years with Chronic Rheumatism. I have spent hundreds of dollars for medical treatment without benefit. Ten days ago, I commenced taking the University Medicines and I can truly say it has been more benefit to me than all other treatment I ever received. My place of business is 137 Pearl street. I shall be pleased to answer all enquiries. JOHN TURNER.

For fifty years I have been troubled with Scrofula. Some fifteen years ago a fearful ulcer broke out on my leg. Three months ago it had extended from the ankle joint nearly to the knee. I could not move without great pain. In this condition I commenced taking the University Medicine.

At first it drove out a fearful humor all over me. In a few days the humor began to subside, and the ulcer is now healed and I feel like a new being.

ELIZABETH CHAMBERLAIN, 38 Chestnut St.
Portland, Aug. 30.

I guarantee the above certificates to be genuine, I will forfeit $1000 to any one that will find them otherwise.

Ayer's Cherry Pectoral

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

THE FEW Compositions which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvellous cures, which have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, which is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords in sudden attacks, and by its timely use.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR

ADVANCING years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; either of them disposes it to fall off prematurely, and either effect is unsightly and unpleasant to behold. Dr. AYER'S consummate skill has produced an antidote for these deformities which has won gratitude for him from multitudes of women and men. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore its youthful color, and with it your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.
